

## T60RP 50TH ANNIVERSARY RP [Regular Phase] Stereo Headphones

### Owner's Manual

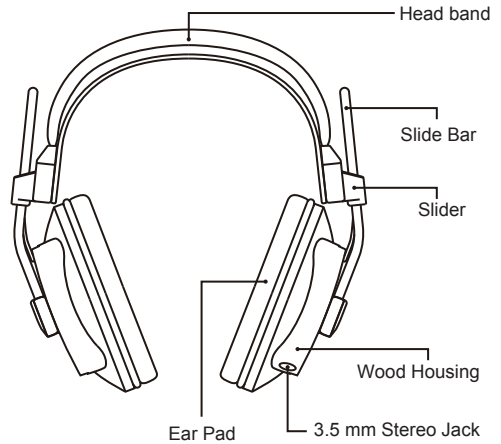

#### ■ Main Features

- \* The housing is made of African Padauk, machined from solid wood. It offers the depth and luster of robust mid-low range and the enjoyable clarity in treble range, which is free from muddiness and elongation.
- \* The package includes two types of ear-pads: synthetic leather and velour. These around-the-ear pads are designed for comfort, allowing enjoyable extended listening sessions.
- \* It employs our proprietary RP diaphragm, crafted from highly heat-resistant polyimide film with etched copper foil. The driver unit utilizes a neodymium magnet, offering a broad reproduction range, exceptional transient response, and a high input resistance of up to 3,000mW.
- \* The headphone cable features a high-quality OFC conductor, ensuring high-resolution and crisp sound across all frequencies. When connected to a balanced output player or headphone amplifier using an optional balanced cable, it effectively suppresses unwanted noise and enhances sound clarity with improved channel separation.
- \* The head pad utilizes genuine leather, enhancing its texture and providing a comfortable and stable wearing experience.
